ACRONYMS AND ABBREVIATIONS USED IN PROJECT NAMES

For entries on the ILEP database the project name is limited to 14 characters. In some cases the name is given by the Secretariat and in others it is given by the ILEP Member-association co-ordinating the project. For this reason the names can be a little obscure. We have provided a list of the more frequently used abbreviations and acronyms. For the reasons given above they are not always consistently applied and the same abbreviation is sometime used for more than one meaning.

ILEP SYSTEM OF REGISTRATION

Basic Principles

- ❖ Project Number: 7 digits
- ❖ Project Name: 14 characters
- ❖ Allocation of numbers: ILEP Secretariat
- ❖ Minimum information required: ILEP A2 questionnaire
- ❖ All new projects are allocated a co-ordinator, which is confirmed by the following General Assembly.

Structure of ILEP Number (Field)

This concerns all projects which can be situated geographically in a given zone and whose objectives directly relate to anti-leprosy work within that zone. The ILEP number is determined by three parameters:

- geography,
- nature of activities,
- coverage of activities.

■ *1st Digit*

Indicates the continent as follows:

1. Africa, 2. America Nth/Ctl, 3. South America, 4. Asia, 5. Europe, 6. Oceania

■ *2nd/3rd Digits*

In combination with the continent indicates the country:

1.22 Ethiopia 4.25 India

■ *4th/5th Digits (00 - 89 Local Projects)*

In combination with digits 1/2-3, indicate the province where the project is located.

00 is used when there is no division by province within the ILEP system for the country concerned.

1.22.00.01	ALERT	(no divisions into provinces)
4.25.07.11	Karigiri	(division into provinces)

■ *4th/5th Digits (90 National coverage)*

In combination with positions 1/2-3 the digits 90 in 4th and 5th position are used to indicate a programme with a national coverage.

1.52.90.01	Mali PN	(programme covering the country)
1.57.90.09	Drugs Supply	(in Nigeria)
4.12.90.90	China NP	(indirect support to China at national level)

■ *4th/5th Digits (91-93-94-95-97-98-99)*

In combination with positions 1/2-3

91	are used for management projects / Local representatives of Members
93	used for Buruli Ulcer projects with no leprosy component
94	are used for health education programmes when not part of control activities
95	are used for training when not part of control activities
97	are used for support to local associations
98	Non-leprosy activities
99	miscellaneous activities

■ **6th/7th Digits**

Indicate the serial number of the project.

Structure of ILEP Number (Sectorial Projects)

This concerns all activities in relation with leprosy, but which do not relate to any specific country or area and/or do not directly benefit any group of patients in a given area. The only parameter used for the registration of these projects is the nature of the activities.

■ **1st digit (7 or 8)**

The number 7 is used for all scientific research activities, whilst the number 8 is used for all field support activities.

■ **2nd/3rd digits (7.01 – 7.90 Research projects and scientific support)**

7.01	Applied research
7.02	Basic research
7.03	Institutions
7.09	Miscellaneous leprosy research
7.20	Non-leprosy research
7.90	Scientific support

■ **2nd/3rd digits (8.01 – 8.90 Field support)**

8.01	Health Education
8.02	Training
8.03	Care/Rehabilitation
8.04	General Field Support
8.05	Supplies
8.09	Miscellaneous Groups
8.99	Miscellaneous

■ **4th/5th digits**

When used indicate a further division in the nature of activities.

■ **6th/7th digits**

Positions 6-7 indicate the serial number of the project.
